PROJECT MOEBIUS

A midcore VR adventure RPG driven by dynamic social situations and experimental replayability

GAMEPLAY OVERVIEW

Explore a changing treasure-filled world of mystery

Feel the power in your hands with class-based movement

Unite to **fight** ferocious fiends and breathtaking bosses

SPECIAL FEATURES

Build a trophy collection
with MR

Save a new world
each time

Multiplayer-first VR that feels
cool no matter what

GAMEPLAY LOOP

A group of players enter an area together...

- They fight monsters with class-based abilities
- They gather loot, some items allow them to upgrade or swap in new skills
- With their task complete, they decide where to go next in pursuit of the biome's boss

ART DIRECTION

Expressive characters with a
cartoony feel

Vibrant and **low-poly** geometry
for appeal and performance

Fantasy themes to explore,
plunder, and battle in

GAME CONCEPT

An evil knight has shattered the world.
Players must unite and put an end to the chaos.

- Adopt a shared identity of Silver Hunters
- Cyclical story invites you back in
- Remixed replays rework the world
- Endless Mode offers unlimited gameplay
- Online multiplayer with singleplayer option
- Co-location being explored

PLAYER EXPERIENCE

Streamlined **RPG elements** for fun and comfort

- Players **choose** from melee, ranged, magic, or potion-crafting classes, each with distinct movement-based abilities
- ‘Leveling’ is tied to earned Slivers — some grant **permanent upgrades** to characters, others can be **mixed and matched**
- Accessible approach with **simple mechanics** invites anyone in; advanced features provide depth for hardcore players

THE WORLD

5 - 7 biomes with unique gameplay elements:

- Biomes are split into **hand-crafted areas** with enemies, tasks, treasure, and resources
- **Checkpoints** allow players to rest
- Player progress is retained, but biome contents are **remixed** on each run to encourage replayability
- Secret ending hidden behind **exploration** of remixed worlds

COMPETITIVE LANDSCAPE

Non-VR Inspiration

Accessible combat, visual design, progression

Casual-friendly multiplayer dungeon-crawling

World and level construction mechanics

VR competitor estimated revenue

Blade & Sorcery: Nomad	\$90M
